Re: Scientology v. Armstrong, et al.
Marin Superior Court Case No. CV 021632

Dear Mr. Wilson:

I have not received the summary judgment motion that you stated on August 29 you would send to me by e-mail.

I have not received the hard copy of that motion that you stated you would file that day.

I have not received a copy of the Court's order of August 29 that Judge Duryee ordered be served on me.

I have not even received your Case Management Conference Statement that you stated was mailed to me on August 22.

You have not responded to my last four e-mail letters in which I advised you that I had not received the documents you had stated you had either already sent or would send.

As you know, and as I have stated many times, your client is committing continuous crimes against me in violation of U.S. Federal law. As you know, you yourself are a willing participant in those criminal activities. Has your cult client told you to not forward me documents and not communicate with me? Don't you suspect, as I must, that to extricate themselves from the situation they've created, where their crimes are being shown daily to the world, they will have me obliterated? I put no crime beyond David Miscavige and the thugs who work for him. Are you hoping to escape more than postage if Miscavige has me obliterated?

Why don't you either send me the documents you promised to send, or tell me that your clients want to end the prosecution of their unlawful case and orders against me, to stop their unlawful efforts to silence me, and to settle this matter rationally and once and for all.

Have you read my response of yesterday to your cult client's opening of its "human rights" office in Brussels?
